

HaloSource funding announced

Origo's portfolio company HaloSource Inc. has successfully raised \$10 million (USD) from new investors to fund the further commercialization of its patented water purification technology. The fundraising was supported by a leading international institutional investor, and a Singapore-based investment management firm. Headquartered in Seattle, WA, the company has manufacturing facilities in Raymond, WA, Bangalore and Shanghai. It has invented, developed and commercialized a range of technologies used in water purification, water clarification and antimicrobial textile coatings.
